

# TIGERBITE 400

PORTABLE MINI CRUSHER

# YEARS IN THE MAKING

---

## OVERVIEW

- The TigerBite 400 is capable of crushing a kerbstone, glass, bricks, tarmac etc. The Jaw is a bottom action crushing method proven better for softer material such as tarmac and sandstone. The jaw aperture can be adjusted with the simple action of turning a hand wheel. The crusher box can be adjusted from 80mm down to 20mm within seconds.
- The conveyor is driven by flexi drive from the fly wheel. The conveyor can be easily folded for transportation.
- Transportation, The TigerBite 400 is built on its own trailer with a total weight of 860kg making its movement between sites simple. The crusher can be relocated and set ready to work within 5 minutes.

## KEY FEATURES

- ▶ Jaw Aperture 400x200
- ▶ Crushed Product 20x80mm (Type 1)
- ▶ 16 Horse Power Petrol Engine
- ▶ 3-6 Tones Output Per Hour
- ▶ Manual or Machine Loading Capability
- ▶ Designed & Made in Great Britain
- ▶ Working components made from high spec tool steel
- ▶ The best quality high grade bearings

400mm

200mm

Length 1800mm

Height 1420mm

Width 1100mm

## TECHNICAL DATA

- Overall Dimensions
  - Length 1800mm
  - Width 1100mm
  - Height 1420mm
- Crusher Dimensions
  - 400x200mm
- Machine Weight
  - 860kg
- Conveyor Discharge Length
  - 1050mm
- Crusher Motor
  - 16Hp Petrol + Reduction Clutch
- Easily loaded manually or with small excavator
